Do you live in Muscatine County?

Would you like to make up to \$17 per hour in a new career?

Do you have a child getting a weekend food backpack?

Apply Today! Limited Spots Available

AVAILABLE EARN WHILE YOU LEARN PROGRAMS

CNA

You will complete the training requirements of the 1987 OBRA for nurse aides/CNA's working in nursing facilities. You will learn how to provide safe and effective care for the residents you will serve by acquiring a basic level of knowledge and skill. It is composed of 50 hours of classroom instruction and 30 hours of clinical experience. Emphasis is placed on providing the residents with comfort, privacy, and safety.

Welding

You will work in the welding lab to develop the skills needed to pass the welding test used by area employers. Past students of a similar program have been hired by these area employers following completion of the course. Students will earn an OSHA-10 hour card as part of the program as well. Length of the program is 180 hours of welding plus 40 hours of additional training in math, measurement, blueprint reading, and welding symbols.

CNC

Computer Numerical Control (CNC) is a method for automating control of machine tools through the use of software embedded in a microcomputer attached to the tool. It is commonly used in manufacturing for machining metal and plastic parts. You will be learning hands-on in the modern laboratory furnished with the same type of equipment used by local manufacturing plants.

Families enrolled may receive:

- Deliveries of food
- Paid six-week college certificate
- A local job related to your chosen certificate program
- The support of a navigator to help with resources
- And more!
